“The Walk Through Audit”

A SKEANS specialist will use our leak detection gun to do a plant tour/ inspection noting various inefficiencies or leak points (tagged with a YELLOW leak tag) and prepare a report with recommendations for management.

4 hours on site - \$500 *plus expenses if travel required*
 8 hours on site - \$800 *plus expenses if travel required*
 Leak Detection & Reporting - \$1,500 *plus expenses if travel required*
(This process provides a report to help reduce the air leak load and maintain the savings).

Expanded Compressor Room Service from our Kamloops, BC Service Center

We are pleased to welcome Jason Montgomery to the SKEANS Service Team. Jason, a well respected and competent service

technician, has joined the SKEANS Compressor Room Division to continue his exceptional service in Central, Eastern & Northern B.C.

Please call Jason @ 250.318.4398 for continued compressor room maintenance, OEM and aftermarket parts.

...is your Total Solution Provider

With the broadest range of air compressors that handle a wide variety of applications. From the most demanding, requiring compressed air 24/7/365 to the fluctuating day to day or shift to shift, they have the right compressor to maximize productivity and energy savings.

Gardner Denver also has a range of Refrigerated, Desiccant or Membrane Dryers as well as Filters, Separators, Drains, Piping & Lubricants to complete your compressor room needs.

SKEANS Electric Automation - Going Beyond Components

Are you working on an automation project? No matter how big or small, our technical team is here to assist you.

Stay up to date with the latest technology available to make your automation solutions faster, better, and easier to integrate.

Contact our Electric Automation Products Manager Sofia sofiam@skeans.com, 604-777-4247 x233, to find out about our Lunch & Learn presentations, where we showcase the latest solutions in pneumatic and electric automation tailored to your needs.

SKEANS attends annual MAC Valves/ MDN Owners & Management Meeting

March 23-25, 2016 - SKEANS Ownership & Sales Management Team recently attended the annual 3 day meeting in Florida to learn about the superior new technology of Pulse Valves & Bullet Valves and creating high value returns for our customers.

Contact our nearest sales office to learn more.

PNEUMADYNE PNEUS

Product Spotlight: 3-Position Toggle Valves, panel mounting

The 3-Position Toggle Valve offers the highest flow rate of the Pneumadyne valve line. This dual function product contains two valves in one body with a common input and common exhaust. To fit application requirements, they can be used as independent 2-Way and 3-Way valves or as a 4-Way (5/3) with an Open Center.

Visit www.bimba.com to view the variety of sizes and configurations available.

Providing the best in Pneumatic and Automation solutions for over 45 years

Congratulations Levon on your new role!

Effective January 1, 2016 Levon Bolt moved from our Kamloops, BC Service Center to start at our head office in Coquitlam, BC as our CRP and Value Added apprentice. Good Luck Levon!

Salesman of the Year

January 2016, Kyle Buchanan & Tony Skeans

Congratulations Kyle!

During our annual SKEANS Sales & Strategic Planning Meeting in January the Salesmen of the Year award for 2015 was presented to Kyle Buchanan.

Kyle had a great year assisting our customers to resolve operational challenges and improve efficiencies on Vancouver Island and in the Lower Fraser Valley.
