

Value Added Solutions

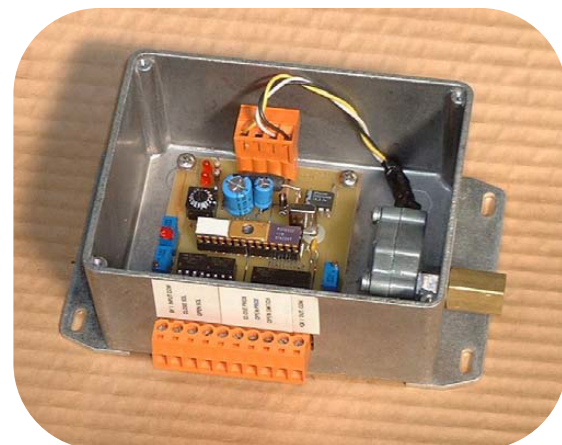

Custom Assemblies

SKEANS can design, assemble, and pre-test your complete pneumatic package. With our experience, assembly facilities and inventory, savings will be realized immediately through reduced labour and production costs.

Custom Manifolds

As a fluid power distributor, cylinder manufacturer and machine shop, SKEANS has the expertise and skill to design and supply custom manifolds. These designs have proven more cost effective, reliable, and compact than plumbed alternatives.

Custom Controls

When suitable commercially available controls are not practical, SKEANS can design and provide custom control solutions. With over 300 such controllers in the field, SKEANS' simple and robust designs have proven themselves worthy of the task.

Air Stations

As a comprehensive fluid power distributor, SKEANS can help design and build a complete pneumatics package for you, ensuring suitable flow, filtering, regulation and lubrication. As well, our environmental enclosures can protect your investment from dust, water and temperature extremes.

Control Panels

SKEANS can also provide complete stand-alone electrical solutions employing the latest controls technology. Our knowledge of industrial pneumatics ensures that your design, components and programming will be a smoothly integrated total controls package.

Integrated Solutions

As with all SKEANS' Value Added solutions, complete integration is key. Whether your requirements are pneumatic, electrical or any combination, SKEANS will provide you with the appropriate solution.
