

## IS YOUR EQUIPMENT READY FOR WINTER?

### SKEANS CAN HELP YOUR EQUIPMENT SURVIVE THE WINTER!

#### Prevent air line freeze-ups. Get your dryer ready!

- *When was your equipment last serviced?*
- *Have you tested your dryer desiccant dewpoint?*
- *Is your desiccant good for another winter?*
- *Have you checked your elements?  
When were they last replaced?*
- *Now is a good time to consider servicing your twin tower regenerative dryer*
- *Dryer operation and dependability is key to a successful winter operation*
- *Send SKEANS a sample of your desiccant and we will have it analyzed, then forward the results to you*
- *Call our Service Department and schedule an appointment to have on site Dew Point testing*

PURIFICATION SOLUTIONS

Our Service Technicians are available in BC, AB, SK and MB. to assist with all your Rotating Equipment requirements.

## ORDER NOW!

We have a large inventory of high quality 1/4" Diameter Activated Alumina Desiccant (Other Sizes Available).

### Activated Alumina Desiccant:

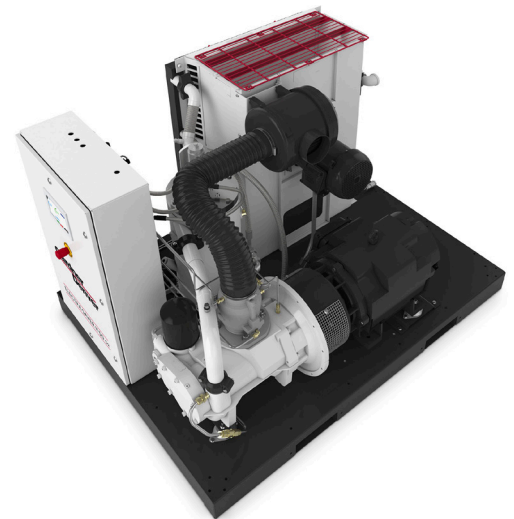

- Activated Alumina Desiccant is an excellent all-purpose desiccant for drying air with high relative humidity
- Dewpoints of  $-100^{\circ}\text{F}$  can be achieved (depending on the dryer design). Activated Alumina can be used in both heated and heatless/pressure swing dryers
- Activated Alumina Desiccant  $-40^{\circ}\text{F}$  dew point std
- Unaffected by catastrophic liquid water loading
- Ideal for both heatless and heat regenerated systems
- Low regeneration temperature  $250^{\circ}\text{F}$  to  $500^{\circ}\text{F}$

## HOW MUCH MONEY DO YOU LOSE IF YOUR AIR COMPRESSOR BREAKS DOWN OR AIR DRYER FAILS?

SKEANS provides parts and services for ALL makes/models of rotary/piston/vane air compressors and desiccant or refrigeration air dryers.

If your equipment fails, simply call us and we'll get you running again...fast!

Our service technician will service your compressor or dryer and leave you with a detailed written report.
